

Tell Me Why.....

Who can tell me why all human physical alerts introduced by our physiology is taken as a course and not an effect?

who can tell me why physical illness are seen as course and not effect?

Who can tell me why we create illnesses Better yet who can tell me why the experinces created in the form of illness is rejected before the lesson is learnt.

Who can tell me if a rejection of any of these illnesses are successful.

Who?

Who can tell me how our thoughts is involved in the creation process of our physical illness

Who can tell me why?

Why are we not paying attention to the study and investigation of the inner workings of a part of our system refeared to as the soma cells

Is this study nessecesary? Do we know the functions and effect of the so called Germ cells on our physiology?

Do we even know what a Germ cell is?

is this information important?

Who can tell me why?

Basically who or what is responsible for the dumbing of the human psycology to thinking that the body controls us (which is true today) and that we do not control the body we live in (?)

3 Point each for every correct answer
