Testimonials

On the next image and in your dashboard you can see new menu item called “Testimonials”. This is where you can organize and setup your testimonial posts.

Introduction

We made custom post types for testimonials posts, same as for slideshow, gallery and events so you don't lost your-self on the pile of different posts.

Testimonials posts was made especially for testimonials shortcode and widget and this is the only way to show your testimonials.

Create Testimonial Categories

To organize testimonial posts you need to create categories.

You can make it before, after or directly during the creation of the testimonial post.

To create gallery category go to **Testimonials -> Testimonial Categories**

Create Testimonial Post

To create new testimonial post, go to **Testimonials -> Add new**

At this page add testimonials text in content editor, then assign category and don't forget to add Name and Job in "testimonial options" metabox below the editor.

Assign Categories

On the right side you will see your categories. You need to check in which category you want this testimonial post to be displayed.

If you don't have any categories yet, then you need to create one.

To do this click + **Add New Testimonials Category**.

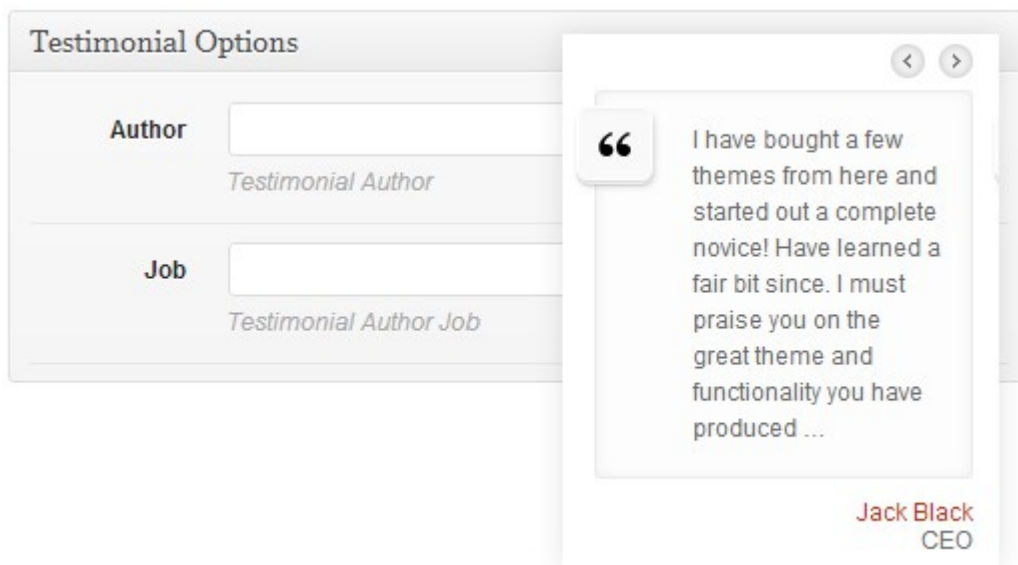

Set Category name and press "Add New Testimonials Category" button.

* And don't forget to assign this category to your testimonial post of course.

The image shows a screenshot of the 'Testimonial Categories' metabox in WordPress. The metabox has a title bar 'Testimonial Categories' and two tabs: 'All Testimonials Categories' and 'Most Used'. Under the 'All Testimonials Categories' tab, there is a list of categories, with 'testimonials' selected. Below the list is a button '+ Add New Testimonials Category'. At the bottom of the metabox, there are two input fields: one for the category name (labeled '2') and one for the category slug (labeled '3'), followed by an 'Add New Testimonials Category' button.

Testimonial Options

You can find two fields for name and job in testimonials options metabox. This fields are used as signature for testimonials.

How to Show Testimonials

Testimonials posts was made especially for testimonials shortcode and widget and this is the only way to show your testimonials.

You can learn [how to add shortcodes](#) and [widgets](#) to the page in shortcodes and widgets section of this documentation.
